COMPANY BACKGROUNDER

OVERVIEW

Explora Journeys is a new luxury lifestyle travel brand with a unique proposition, connecting travellers with the ocean, themselves and their environments.

Explora Journeys stems from the long-held vision of the Aponte family to redefine the ocean experience and create a category of its own.

The brand's vision is to offer guests a chance to experience an **"Ocean State of Mind"** – the way we refer to the mindset that can be achieved when we escape to the ocean, relax, create memories, and reconnect with what matters most in our lives.

One currently sailing and two of which are already under construction, will be created under the Explora Journeys brand from 2023 to 2028

OWNERSHIP

Explora Journeys is privately owned by the MSC Group and run by the Executive Chairman of MSC Group's Cruise Division Mr Pierfrancesco Vago, his wife Alexa Aponte Vago and the Aponte family.

The MSC Group was founded in 1970 by Gianluigi Aponte who started his career as a Captain operating passenger ferries in the Mediterranean.

MSC Cruises, one of two brands that sit within the Cruises Division of MSC Group, is the world's third-largest cruise brand and the fastest-growing global cruise brand.

The MSC Group is the world's largest privately held Swiss-based shipping and logistic conglomerate with over 300 years of maritime heritage, headquartered in Geneva. A global company, driven by passion, dedication, and an unwavering entrepreneurial spirit.

MSC FOUNDATION

The MSC Foundation, a private non-profit foundation, was established by the Aponte family to direct and advance the MSC Group's environmental, humanitarian and sustainable development commitments worldwide.

The Foundation works to restore the critical balance between people and the environment.

The Foundation's ethics are inspired by the family-owned MSC Group's values and above all, a sense of responsibility for the planet, its oceans and people.

Their mission is to utilise MSC's global reach and unique knowledge of the sea to take immediate action that contributes to protecting and nurturing the blue planet and all its people.

The Foundation encourages the sustainable management and protection of ecosystems, empowers vulnerable communities around the world to realise their full potential, promotes quality, equitable and inclusive education to enhance durable individual and collective development and helps disaster-struck populations towards recovery.

SUSTAINABILITY

Explora Journeys' deep respect for the ocean is the central component of the journey, never forceful nor intrusive upon the destinations and local communities, and conscientious of the environment and sustainability.

Environmental supporting technologies and emission control systems will be employed throughout including:

- Provision for battery storage to allow future hybrid power generation
- Ballast Water Treatment System USCD Approved
- Smart heating, ventilation and air conditioning systems (HVAC)
- Trim optimisation software
- LED lighting, high-efficiency appliances
- RINA Dolphin Certificate reduced underwater noise
- Selective Catalytic Reduction (SCR) technology enabling a reduction in nitrogen emissions by 90 per cent.

Destination experiences will be designed to leave a positive impression and footprint on the places and people visited by placing a spotlight on local talents, craftsmanship, culture, gastronomy, and traditions.

The MSC Group pledge to reach net zero greenhouse gas (GHG) emissions in its cruise marine operation by 2050.

Explora Journeys will support and give back to noble environmental causes through the MSC Foundation.

Onboard initiatives include:

- Water fountains throughout the ship to offer refillable water stations and avoid the usage and wastage of plastic
- Waste-management and energy-saving solutions
- No single-plastic used on-board and ashore

LNG is currently the cleanest marine fuel currently available at scale. In terms of emissions with a global impact, LNG plays a significant role in climate change mitigation with the engines having the potential to reduce CO₂ emissions by up to 25 per cent compared to standard marine fuels. decarbonised operations.

Explora Journeys are Members of the Global Sustainable Tourism Council and seek to ensure that all Tour Operators, partners and suppliers have awareness and compliance of the programme.

DESIGN

The European family roots and sense of style informs an intuitive appreciation of design and luxury, which Explora Journeys embodies through its modern, cosmopolitan, boutique hotel vibe – vibrant, yet intimate.

Explora Journeys engaged **Martin Francis**, the accomplished British designer and architect with decades of experience working on some of the most iconic yachts on the water as part of the design team, to ensure the exterior profile of the Explora Journeys' ships are more aligned to a superyacht than a traditional cruise ship.

Other designers include **SMC Design, AD Associates** and **De Jorio Luxury and Yacht Projects**, who have worked with the Aponte Vago family for a number of years.
